

# Energy Committee Annual Report

**Date Submitted:** 05/18/2022

**Chairperson(s):** Ben James

**Members:**

Dick Haden, Peter Lane, Barbara Grove, Dick Kline, Nancy Evoy, Andrea Palmer, Spencer Ervin, Bruce Taggart, Penny Paul, Bob Whitlock (Cartmel Sustainability), Roy Manno (facilities), George Alexander (Kendal Energy Committee)

**How many Crosslands residents benefit from this committee's activities? How often?**

Over one hundred participated in an Energy project last summer. All residents have been contacted on LED light bulbs.

**Accomplishments:**

- We have conducted two significant projects this year.
  1. The Peak Energy Demand Reduction during the summer of 2021.
  2. The LED free bulbs for residents home lamps this spring.
- We also conducted a Crosslands residents car use survey in the fall of 2021.
- The Crosslands Energy Committee is working closely with the Kendal at Longwood Energy Committee to support energy conservation measures in KCC.
- In addition, the Crosslands Energy Committee supports and draws resources from the all Kendal climate group, Senior Stewards Acting For the Environment, SSAFE.
- Other than necessary copier costs, we have not spent any CRA funds.
