How many Crosslands residents benefit from this committee's activities? How often?

Everyone in the community benefits from the Committee's activities. 6 community gardens are maintained by members of the committee. Horticulture Therapy in Audland and Firbank is supported by the committee members. Hanging baskets are purchased by the committee for hanging in the 6 apartment buildings. 19 Area Representatives communicate with residents, oversee their respective areas, offer suggestions and often physically help in their garden areas. Members assess local landscaped needs and submit requests for attention to the KCC Horticulturist. Number of hours worked by residents in community spaces is recorded and reported to Casey Groff, Grounds Supervisor. AND MUCH MORE!!!

Accomplishments:

- See above for ways the Horticulture Committee benefits residents. If we needed to reduce our budget, fewer of these activities would be accomplished.....fewer plants would be purchased for the many different areas.
