**How many Crosslands residents benefit from this committee's activities? How often?**

The House Committee has the responsibility for the care and appearance of the Crosslands Community Center and the Ellerslie Farmhouse. The goal is to maintain a homelike, comfortable and welcoming atmosphere by paying attention to furnishing and decorative features.

**Accomplishments:**

- New furniture has been on order for many months for the Center Hallway and the William Penn Lounge - replacements for the furniture that was stored during the pandemic and was unfortunately disposed of because of mold.
- Our budget is small and is used primarily for plants, containers, small repairs made by the woodshop, Christmas wreaths and bows for the Crosslands Center doorways.
